THE KNOWLEDGE SOLUTIONS ENTERPRISE

www.LearningLinguaSolutions.com

ABOUT US

Learning Lingua Solutions is a sister concern of Translation India - an Indian company with remarkable presence across the globe. Translation India was established in the year 1997 and since then it is engaged in the business of language translation, interpretation and conference services.

In the year 2010, Translation India ventured into the field of knowledge solutions and its sister concern Learning Lingua Solutions was born. LLS has been at the forefront of the Knowledge Solution Business through acquiring, creating, developing, managing and sharing knowledge. LLS brings forth international standards of learning solutions, content development and training to Indian sub-continent."

Learning Lingua Solutions is an upcoming brand in Knowledge Solutions business, working with major players of IT/ITES, manufacturing and service industry. We have made a remarkable presence in the e-learning and 2D/3D Animation industry. We offer cost-effective solutions to our clients with quality assurance based on industry standards.

We believe in building our client relationships based upon professionalism, trust and responsiveness. Our competitive advantage over other companies is that our ability to provide high quality multilingual content within a very short span of time comparatively at a fraction of the cost.

Services

Knowledge Solutions

Every organization has a unique learning need and target group to transfer knowledge. Some groups require Instructor-Led Training (ILT), some desire for Web-Based Training (WBT), while some look for a mix of different modes of training. The subject areas of training also differ widely from client to client depending upon target group, infrastructure, geographical boundaries and capacity.

Learning Lingua Solutions caters to all such learning requirements and offers unique solutions for same. We develop customized training/learning content suitable for various modes of delivery. Our team have developed courses in a large number of subjects for widely varied audiences - ranging from IT and Sales to Income Tax, Armed Forces to Gram Panchayats etc.

Our experience in training and custom training content development for some gives us the unmatched edge suiting the client's requirement. By associating with LLS, you will get an e-learning partner exclusively focused on your training needs through its solutions, which include:

1. Development of CBT/WBT
2. Simulations
3. Content Conversion & Localization
4. Content Development for Instructor Led Training
